# Kingfisher Appeal

## Every £1 Donated Raises £20!

### Kingfishers Are In Trouble

Kingfishers are one of this country's most iconic birds associated with our rivers. But nationally kingfishers are a **cause of concern** and are coded as 'amber' on the national list of 'Birds of Conservation Concern'. The Itchen Navigation has the potential to be a stronghold for these birds, but major efforts are needed to create more potential breeding sites and territories.

### Making a Difference - Twenty Times!

Our efforts on the Itchen Navigation so far have been made possible by generous funding from the Heritage Lottery Fund (HLF), the Environment Agency, and others - **but only if we raise one twentieth of the costs ourselves.**

- **A £10 donation will raise £200** which could provide artificial kingfisher nesting holes to improve breeding success
- **A £20 donation will raise £400** which could fund emergency repairs along 40m of eroded riverbank, using natural locally-sourced materials to prevent future bank collapse
- **A £50 donation will raise £1000** which could significantly enhance 50m of riverbank, creating new areas of habitat to provide shelter for kingfishers, water voles and otters
